

Class:-SYBBA(CA) -Semester IV

Subject :- Programming in Visual Basic

Question Bank Multiple Choice Questions (MCQ)

Unit 1 :- Getting started with V. B.

-
- 1) _____ this control is use to display the images
- a) image
 - b) combo
 - c) shape
 - d)text
- 2) To change the control's Shape using the _____ property
- a) image
 - b) combo
 - c) shape
 - d)text
- 3) The ____ box is the standard control for accepting input from the user as well as to display the output.....
- a) image
 - b) combo
 - c) shape
 - d)text

4) text box can handle string (text) and numeric data but not images or pictures

- a) True
- b) False
- c) Both
- d) none of these.

5) The _____ is a very useful control for Visual Basic, as it is not only used to provide instructions and guides to the users, it can also be used to display outputs.

- a) image
- b) combo
- c) Label
- d)text

6) One of its most important properties of lable is _____

- a) background
- b) caption
- c) Label
- d)text

7) One of its most important properties of text box is _____.

- a) background
- b) caption
- c) Label
- d) text

8) The _____ is one of the most important controls as it is used to execute commands.

- a) command button
- b) radio
- c) Label
- d) text

9) The most common event associated with the command button is the _____ event,

- a) click
- b) change
- c) double click
- d) text

10) The _____ is one of the controls that is used to handle graphics

- a) picture box
- b) combo
- c) Label
- d)text

11) In Picture box You can also load the picture at runtime using the _____ method.

- a) picture box
- b) Load picture
- c) resize
- d)text

12) `Picture1.Picture=LoadPicture ("C:\VBprogram\Images\grape.gif")` it is syntax of the picture box .

- a) True
- b) False
- c) Both
- d) none of these.

13) The _____ Control is another control that handles images and pictures

- a) image control
- b) Load picture
- c) combo
- d)text

14) The main property of Image Control is _____,

- a) resize
- b) stretchable
- c) list
- d) caption

15) The main property of Picture Box, is LoadPicture and _____ the picture .

- a) resize
- b) stretchable
- c) list
- d) caption

16) The function of the _____ is to present a list of items where the user can click and select the items from the list.

- a) listbox control
- b) check
- c) radio
- d) text

17) in list box , In order to add items to the list, we can use the _____ method.

- a) resize
- b) stretchable
- c) add-item
- d) caption

18) in ____ we present a list of items where the user can click and select the items from the drop-down list.

- a) combo box
- b)check
- c) radio
- d)text

19) The ____ control lets the user selects or unselects an option we can select more than one option from the group.

- a) combo box
- b)checkbox
- c) radio
- d)text

20) . When the ____ is checked, its value is set to 1 and when it is unchecked, the value is set to 0.

- a) combo box
- b)checkbox
- c) radio
- d)text

21) the main property of check box is ____.

- a) list
- b)check
- c) value
- d)text

22) The `OptionButton` control is used to select one of the choices. its main property is _____ value.

- a) list
- b) check
- c) value
- d) text

23) When an option box is selected, its value is set to "True" and when it is unselected; its value is set to "False".

- a) True
- b) False
- c) Both
- d) none of these.

24) the _____ control is placed in the form together with six `OptionButtons`. To determine the shape of the shape control.

- a) shape
- b) combo
- c) picture box
- d) images

25) The property values of the shape control are 0, 1, and 2,3,4,5 which will make it appear as a rectangle, a square, an oval shape, a circle, a rounded rectangle and a rounded square respectively.

- a) True
- b) False
- c) Both a and b
- d) none of these.

26) The _____ is for displaying a list of drives available in your computer

- a) drive list box
- b) picture box
- c) list box
- d) dirlist box

27) When you place _____ control into the form and run the program, you will be able to select different drives from your compute

- a) drive list box
- b) picture box
- c) list box
- d) dirlist box

28) The _____ means the Directory List Box.

- a) drive list box
- b) picture box
- c) list box
- d) dirlist box

29) _____ is for displaying a list of directories or folders in a selected drive

- a) drive list box
- b) picture box
- c) file list box
- d) dirlist box

30) _____ is for displaying a list of files in a selected drive or folder.

- a) drive list box
- b) picture box
- c) file list box
- d) dirlist box

31) The variable can be a declared by _____ statement .

- a) dim
- b) var
- c) \$
- d) none of these.

32) Following are the arithmetic operator .

- a) <
- b) >=
- c) mod
- d) >

33) Following are the condition operator .

- a) OR
- b) and
- c) >
- d) <=>

34) Following are the logical operator

- a) +
- b) or
- c)/
- d) ?

35) Following are the concatenation operator

- a)+
- b) &
- c) &&
- d) none of these

36) the logical operator xor is used when One side or other must be true but not both

- a) True
- b) False
- c) Both true and false
- d) none of these.

37) _____ is used to take decision .

- a) if condition
- b) while loop
- c) for loop
- d) wend

38) if condition is end by _____.

- a) end if condition
- b) next
- c) stop
- d) wend

39) In _____ if condition we can check more than one condition .

- a) end if condition
- b) next
- c) stop
- d) nested

40) _____ is used to check the condition with step by step by in this also we the condition more than one .

- a) end if condition
- b) next
- c) else if ladder
- d) nested

=====

1(a)	2(c)	3(d)	4(a)	5(c)	6(b)	7(d)	8(a)	9(a)	10(a)
11(b)	12(a)	13(a)	14(b)	15(a)	16(a)	17(c)	18(a)	19(b)	20(b)
21(b)	22(c)	23(a)	24(a)	25(a)	26(a)	27(a)	28(d)	29(d)	30(c)
31(a)	32(c)	33(a)	34(b)	35(b)	36(a)	37(a)	38(a)	39(d)	40(c)

Unit 2: Constants, Variables , Operators, Control Structure, Looping & Array

Question Bank Multiple Choice Questions (MCQ)

- 1) _____ structure can handle conditions with multiple outcomes in an easier manner
 - a) select case control
 - b) next
 - c) if condition
 - d) nested

- 2) When you have a loop within a loop, then you have created a _____.
 - a) select case control
 - b) next
 - c) if condition
 - d) nested loop

- 3) in VB , The while loop is end by _____.
 - a) stop
 - b) next
 - c) wend
 - d) nested

- 4) in _____ , first we check the condition , if the condition is true then it execute the true statement .
 - a) while
 - b) do while
 - c) if condition
 - d) nested

5) In _____ first we execute the true statement . then we check the condition if the condition is true then it again execute the true statement .

- a) while
- b) do while
- c) if condition
- d) nested

6) in VB , The _____ first we check the condition , if the condition is true then it execute the true statement same as while condition .

- a) for loop
- b) do while
- c) if condition
- d) nested

7) The function of _____ is to give a pop-up message to the user.

- a) msgbox()
- b) inputbox()
- c) print
- d) nested

8) An _____ function will display a message box where the user can enter a value.

- a) msgbox()
- b) inputbox()
- c) print
- d) nested

9) In VB , the _____ is the function that computes the square root of a number.

- a) sqrt()
- b) round()
- c) abs()
- d) Len()

10) In VB, _____ is the function that rounds up a number to a certain number of decimal places.

- a) sqrt()
- b) round()
- c) abs()
- d) Len()

11) In VB, _____ is the function that returns the absolute value of a number.

- a) sqrt()
- b) round()
- c) abs()
- d) Len()

12) In VB, The Len function returns an integer value which is the length of a phrase or a sentence, including the empty spaces.

- a) True
- b) False
- c) Both a and b
- d) None of these ..

13) In VB, The _____ function extracts a substring from the original phrase or string

- a) True
- b) False
- c) Both
- d) None of these ..

14) In VB, The _____ function converts all the characters of a string to capital letters.

- a) str()
- b) Ucase()
- c) val ()
- d) Len()

15) In VB, The _____ is the function that converts a number to a string.

- a) str()
- b) Ucase()
- c) val ()
- d) Len()

15) In VB the _____ function converts a string to a number.

- a) str()
- b) Ucase()
- c) val ()
- d) Len()

16)) In VB ,We can use Public or Dim statement to declare an array .

- a) True
- b) False
- c) Both
- d) None of these ..

17) in VB , _____is used to enter the more then one value in a single variable having same data types.

- a) dim
- b) structure
- c) array
- d) variable

18) In VB , array is divided into 3 types ., the second type is _____.

- a) single dimension
- b) double dimension
- c) poly dimension
- d) multi dimension

19) . ADO stands for _____

- a) ActiveX data objects
- b) ActiveX variable objects
- c) Another data object
- d) none of these.

20) ADO is ActiveX-based, it can work in different platforms and different programming languages.

- a) True
- b) False
- c) Both
- d) None of these

21) ____ is insert from component , it is used to load ADO control.

- a) Microsoft ActiveX Data Control 6
- b) Microsoft Combo control 6
- c) Microsoft data grid control.
- d) None of these

22) To be able to access and manage a database, you need to connect the ADO data control to a database file.

- a) true
- b) false
- c) Both
- d) none of these

23) _____ file very necessary to connect to the access data base file by ADO.

- a) .mdb
- b) .cls
- c) .frm
- d) .acca

24) the _____ is a term commonly used in the programming world to describe the interface and environment that we use to create our applications.

- a) IDE
- b) tool bar
- c) menu bar
- d) none of these.

25) in VB, _____ is called integrated because we can access virtually all of the development tools

- a) IDE
- b) tool bar
- c) menu bar
- d) none of these.

26) The Visual Basic IDE is made up of a number of components but following is not include it.

- a) Menu Bar
- b) Tool Bar
- c)interpret
- d) Properties window

27) _____ format. In this format, the windows associated with the project will stay within a single container known as the parent. Code and form-based windows will stay within the main container form.

- a)MDI
- b)SDI
- c) Form
- d) code

28) The _____ contains a set of controls that are used to place on a Form at design time thereby creating the user interface area. Additional controls can be included in the toolbox by using the Components menu item on the Project.

- a)MDI
- b)SDI
- c) Menu bar
- d) Toolbox

29) _____ displays the commands that are required to build an application. it is used to display the menus of the particular application

- a)MDI
- b)SDI
- c) Menu bar
- d) Toolbox

30) The _____ is used to show quick reference to the various elements of a project namely form, classes and modules

- a)MDI
- b)Project Explorer
- c) Menu bar
- d) Toolbox

31) The _____ is show under or below the Project Explorer window

- a) Properties Window
- b)Project Explorer
- c) Menu bar
- d) Toolbox

32) The _____ show the various characteristics of selected objects or controls.

- a) Properties Window
- b) Project Explorer
- c) Menu bar
- d) Toolbox

33) _____ in Visual Basic has characteristics such as color and size, shape, font style, background colour, width, height etc.

- a) Properties Window
- b) Project Explorer
- c) Object
- d) Object Browser

34) The _____ allows us to browse through the various properties, events and methods that are made available to us

- a) Properties Window
- b) Project Explorer
- c) Object
- d) Object Browser

35) _____ are open from the View menu or pressing the key F2. The left column of the Object Browser lists the objects and classes that are available in the projects

- a) Properties Window
- b) Project Explorer
- c) Object
- d) Object Browser

36) Object Browser are open from the _____ or pressing the key F2. The left column of the Object Browser lists the objects and classes that are available in the projects

- a) view menu
- b) tool menu
- c) insert menu
- d) Object Browser

37) All Code in Visual Basic is stored in the form of _____

- a) Properties Window
- b) module
- c) Object
- d) Object Browser

38) There are 3 type of modules following are not include in it.

- a) Form Modules,**
- b) Standard Modules**
- c) Class Modules.**
- d) Basic Module.**

39) The extension of class module is _____

- a).cls**
- b) .frm**
- c) .Pvb**
- d) .mdb**

40) The long form of SDI is _____

- a) Multiple Document Interface**
- b)Single Document interface**
- c) Single data interface**
- d) system document interface**

1(a)	2(d)	3(c)	4(a)	5(b)	6(a)	7(a)	8(b)	9(a)	10(b)
11(c)	12(a)	13(a)	14(b)	15(a)	16(a)	17(c)	18(b)	19(a)	20(a)
21(a)	22(a)	23(a)	24(a)	25(a)	26(c)	27(a)	28(d)	29(c)	30(b)
31(a)	32(a)	33(c)	34(d)	35(d)	36(a)	37(b)	38(d)	39(a)	40(b)

Unit 3:- Working with Controls

Question Bank Multiple Choice Questions (MCQ)

1) The long form of MDI is_____.

- a) Multiple Document Interface
- b)Single Document interface
- c) Single data interface
- d) system document interface

2)_____ is used to work as parents, its main property is mdi child , all the forms are open within MDI

- a) Multiple Document Interface
- b)Single Document interface
- c) Single data interface
- d) system document interface

3) MDI is used to work as _____, its main property is mdi child , all the forms are open within MDI

- a)Parents
- b)child
- c) form
- d) menu

4) MDI is used to work as parents, its main property is _____, all the forms are open within MDI

- a) MDI child
- b) multiple
- c) list
- d) background

5) In VB, . A _____ returns a value and a Sub Procedure does not return a value.

- a) function procedure
- b) sub procedure
- c) MDI
- d) SDI

6) In VB, . A Function procedure returns a value and a _____ does not return a value.

- a) function procedure
- b) procedure
- c) MDI
- d) SDI

7) A _____ is used to create and manipulate custom properties. It is used to create read only properties for Forms

a) function procedure

b) procedure

c) MDI

d) SDI

8) In VB, Standard modules and Class modules. provides three kind of property procedures but following not include in this

a) Property Let procedure

b) Property Get procedure

c) Property Set procedure

d) Property post procedure

9) As per the syllabus we study version of VB is _____

a) 6.0

b) 4.0

c) 6.22

d) 3.33

10) _____ Displays a list of items from which a user can select one.

- a) List box
- b) radio
- c) check box
- d) none of these

11) _____ control which is a part of an option group allows the user to select only one option even it displays multiple choices.

- a) List box
- b) radio
- d) check box
- d) none of these

12) _____ Executes the timer events at specified intervals of time

- a) List box
- b) radio
- c) check box
- d) timer controls

13) _____ Use to store alphanumeric values. A variable length string can store approximately 4 billion characters

- a) String
- b) Boolean
- c) variant
- d) date

14) _____ is the default Visual Basic data type

- a) String
- b) Boolean
- c) variant
- d) date

15) . In Visual Basic if we declare a variable without any data type by _____ this the data type is assigned as default..

- a) String
- b) Boolean
- c) variant
- d) date

16) A variable declared as _____ type can store both values and it can store date values 01/01/0100 up to 12/31/9999

- a) String
- b) Boolean
- c) variant
- d) date

17) _____ data types hold either a true or false value

- a) String
- b) Boolean
- c) variant
- d) date

18) when we Declaring a variable before programming start it is called as _____ it tells Visual Basic to reserve space in memory.

- a) Explicit Declaring
- b) implicit declaring
- c) public declaring
- d) local declaring

19) _____ variables are not reinitialized each time Visual Invokes a procedure and therefore retains or preserves value even when a procedure ends

- a) static
- b) public
- c) Local
- d) general

20) when we declare the variable in _____ of VB then it is public variable

- a) static
- b) public
- c) Local
- d) general

21) when we declare the variable in a Particular control of vb then it is _____ variable .

- a) static
- b) public
- c) Local
- d) general

22) The _____ selection structure allows the programmer to specify that a different action is to be performed when the condition is True than when the condition is False.

- a) if ... then ..else
- b) do while
- c) Dynamic array
- d) array

23) In _____: The size of the array can be changed at the run time-size changes during the program execution.

- a) if ... then ..else
- b) do while
- c) Dynamic array
- d) array

24) In _____: The size of array always remains the same-size doesn't change during the program execution.

- a) if ... then ..else
- b) do while
- c) Dynamic array
- d) fixed array

25) we set the property by _____

- a) object browser
- b) form layout
- c) window state
- d) property window

26) we set where to show the form by _____this form property

- a) object browser
- b) form layout
- c) window state
- d) none of these

27) extension of project of vb is ____

- 1).vbp
- 2) .frm
- 3) .bmp
- 4) .vb

28) extension of form of vb is ____

- 1).vbp
- 2) .frm
- 3) .bmp
- 4) .vb

29) we set the form property by maximize the window or minimize the window by ____

- a) window state property
- b) view property
- c) object browser
- d) none of these

30). ---- is an activity that occurs during program execution such as mouse click or keystroke.

- a) event
- b) module
- c) code
- d) property

31)code in vb is stored in the form of ----

- a) module
- b) form
- c) .vbp
- d) none of these

32) vb is an ----in which one can develop , run, test & debug applications.

- a) Object based programming language
- b) Script language
- c) mobile application
- d) none of these

33)____are collections of small iconic button that resides in a Menu- bar

- a) tool bar
- b) command button
- c) menu bar
- d) tool box

34).---- array size can be changed at run time .

- a) dynamic
- b) fixed
- c) single dimension
- d) double dimension

35).----is the process of finding & removing errors.

- a) debugging
- b) error finding
- c) processing
- d) non of these

36)The default property for a command control is ----

- a) caption
- b)text
- c) list
- d) background

37) VB is tool that allows you to develop application in ____

- a)real time
- b)GUI
- c)character
- d)none of these

38)___object browser is used for finding out about object, properties & methods.

- a)form layout window
- b)code editor window
- c)object browser
- d)none of these

39)In vb variable name cannot be more than --- characters

- a)255
- b)300
- c)355
- d)4000

40) The function procedures are --- by default

1) public

2) private

3) protected

4) none of these

1(a)	2(a)	3(a)	4(a)	5(a)	6(b)	7(b)	8(d)	9(a)	10(a)
11(b)	12(d)	13(a)	14(c)	15(c)	16(d)	17(b)	18(a)	19(a)	20(b)
21(c)	22(a)	23(c)	24(d)	25(d)	26(b)	27(a)	28(b)	29(a)	30(a)
31(a)	32(a)	33(c)	34(a)	35(a)	36(a)	37(b)	38(c)	39(a)	40(a)

Unit 4 : Working with ActiveX Controls & Menus

Question Bank Multiple Choice Questions (MCQ)

1) In vb _____ is the extension to represent project file.

- a).frm
- b).vbp
- c).cls
- d).vb

2) ___ is data type that can be used to declare a text of maximum 10 million.

- a)date
- b)long
- c)numeric
- d)string

3)The variable that does not change the value during execution of program is_____

- a)numeric
- b)string
- c)constant
- d)none

4).----is collection of files.

- a)class
- b)group
- c)file
- d)folder

5)The methods which loads the form into memory _____ it on screen.

- a)load
- b)show
- c)display
- d)all of above

6)The code in an application can be broken into logical component by --- process

- a)modular
- b)procedural
- c)partitioning
- d)none of these

7) Vb allows programmers to define a data type before start the program it is called _____

- a) explicit
- b) implicit
- c) dim
- d) none of these

8) VB allows programmers to without the declaring data type before start the program it is called _____

- a) explicit
- b) implicit
- c) dim
- d) none of these

9) Variables are used to temporarily store data during execution of application.

- a) true
- b) false
- c) both
- d) none of these

10) A variable is scoped to a global or local variable depending on how it is declared.

- a) true
- b) false
- c) both
- d) none of these

11).-- is the process of putting two string together.

- a) concatenation
- b) grouping
- c) remove
- d) none of these

12) Which type of array requires two indexes to identify a particular element.

- (a) single dimensional array
- (b) two dimensional array
- (c) multidimensional array
- (d) none of these

13) The size of array can be changed at run-time size changes during program execution is called----.

- (a)static array
- (b)dynamic array
- (c)both a and b
- (d)none of these

14) .which symbol is used to concatenate two string?

- (a)==
- (b)&
- (c)>=
- (d)all of above

15) which of the following is not type of operator?

- (a)arithmetic
- (b)assignment
- (c)concatenate
- (d)control

16).----- is non-numeric data type.

- (a) byte
- (b) integer
- (c) long
- (d) date

17) The main Property of check box is _____

- a) check
- b) value
- c) stretch
- d) load picture

18) The main Property of radio button box is _____

- a) check
- b) value
- c) stretch
- d) load picture

19) _____ property is used set width and height of images .

- a) check
- b) value
- c) stretch
- d) load picture

20) Stretch property is used set _____ of images .

- a) width and height
- b) border
- c) color
- d) load picture

21) What is the use of OLE

- a) we can link to the other application
- b) we can remove the other application
- c) we can adjust the application
- d) none of these

22) The main Property of label box is _____

- a) check
- b) value
- c) caption
- d) load picture

23) The main Property of picture box is _____

- a) check
- b) value
- c) caption
- d) picture

24) Progress bar is always work with _____ control.

- a) text box
- b) Timer
- c) menu
- d) none of these.

25) To menu editor is available in _____ button of the mouse

- a) left
- b) right
- c) got focus
- d) none of these

26) To create the status bar the first we have to insert _____

- a) Picture box
- 2) Images box
- 3) Label box
- 4) none of these

27) _____ menu is open by right button of the mouse .

- a) Short cut menu
- b) Popup menu
- c) Sub menu
- d) none of these

28) To create menu on MDI form, we have to select _____

- a) View code
- b) menu editor
- c) Images
- d) Lock control

29) status bar is display at the _____ of the mdi forms.

- a) bottom
- b) top
- c) dim
- d) frame

30) Toolbar is display at the _____ of the mdi form.

- a) bottom
- b) top
- c) dim
- d) frame

31) To declare the variable in vb _____ -this key word is used

- a) bottom
- b) top
- c) dim
- d) frame

32) _____ is used to differentiate the one radio button group to another radio button group.

- a) bottom
- b) top
- c) dim
- d) frame

33) in _____ box & _____ can edit in run time

- a) text box & combo box
- b) list and combo
- c) label and text
- d) all of these.

34) Ms Access is used to _____

- a) Store data
- b) display data
- c) create data
- d) None of these

35) ADODC is used to _____ -

- a) link to database
- b) Create database
- c) link with window
- 4) none of these

36) The data controls used to link _____

- a) oracle
- b) ms-excel
- c) Ms-access
- d) none of these

37) Following properties is use full to link ms-access in ADODC.

- a) Data source
- b) Caption
- c) text
- d) list

38) VB is the example of _____ software .

- a) Backhand
- b) front end
- c) O.S
- d) none of these.

39) The main property of ADODC control property is ____

- a) data source
- b)caption
- c) text
- d) none of these.

40) The IDE include all widow property, form, project ,form layout .

- a) true
- b) false
- c) both
- d) none of these

1(b)	2(d)	3(c)	4(d)	5(c)	6(b)	7(a)	8(b)	9(a)	10(a)
11(a)	12(b)	13(b)	14(b)	15(d)	16(d)	17(a)	18(b)	19(c)	20(a)
21(a)	22(c)	23(d)	24(b)	25(a)	26(b)	27(b)	28(b)	29(a)	30(b)
31(c)	32(d)	33(a)	34(a)	35(a)	36(c)	37(a)	38(b)	39(a)	40(a)

Unit 5: Working With Database

Question Bank Multiple Choice Questions (MCQ)

- 1) MS-access or oracle is the example of _____ software.
- a) back end
 - b) front end
 - c) mathematical
 - d) none of these
- 2) The _____ include all widow property, form, project, form layout .
- a) IDE
 - b) ADODC
 - c) msaccess
 - d) none of these
- 3) _____ is used to link to the data base
- a) ADODC
 - b) data base
 - c) MDI
 - d) none of these

4) In _____ box we can edit in run time

- a) text box
- b) list and combo
- c) label and text
- d) all of these.

5) _____ is used to differentiate the one radio button group to another radio button group.

- a) frame
- b) top
- c) dim
- d) list

6) Progress bar is always work with timer control.

- a) true
- b) false
- c) both
- d) none of these

7) What is the use of OLE

- a) we can link to the other application
- b) we can remove the other application
- c) we can adjust the application
- d) none of these

8) .which symbol is used to concatenate two string?

- (a) ==
- (b) &
- (c) >=
- (d) all of above

9) .which of the following is type of operator?

- (a) if condition
- (b) loop
- (c) select case
- (d) Arithmetic

10).----- is non-numeric data type.

- (a)byte
- (b)integer
- (c)long
- (d)date

11) .the size of array can not be changed at run-time size changes during program execution is called_____

- (a)static array
- (b)dynamic array
- (c)both a and b
- (d)none

12).which type of array requires one indexes to identify a particular element.

- (a)single dimensional array
- (b)two dimensional array
- (c)multidimensional array
- (d)none of these

13) _____ is the process of finding & removing errors.

- a) debugging
- b) error finding
- c) processing
- d) none of these

14) VB is an _____.

- a) Object based programming language
- b) Script language
- c) mobile application
- d) none of these

15) In _____ The size of the array can be changed at the run time- size changes during the program execution.

- a) if ... then ..else
- b) do while
- c) Dynamic array
- d) array

16) The _____ is show under or below the Project Explorer window

- a) Properties Window
- b) Project Explorer
- c) Menu bar
- d) Toolbox

17) The _____ is used to show quick reference to the various elements of a project namely form, classes and modules

- a)MDI
- b)Project Explorer
- c) Menu bar
- d) Toolbox

18) The Visual Basic IDE is made up of a number of components, which one is not?

- a) Menu Bar
- b) compiler
- c) Project Explorer
- d) Properties window

19) _____ is insert from component , it is used to load ADO control.

- a) Microsoft ActiveX Data Control 6
- b) Microsoft Combo control 6
- c) Microsoft data grid control.
- d) None of these

20) ADO is ActiveX-based, it can not work in different platforms and different programming languages.

- a) True
- b) False
- c) Both
- d) None of these

21) in VB , ___ is used to enter the more then one value in a single variable having different data types.

- a) dim
- b) structure
- c) array
- d) variable

22) In VB , array is divided into 3 types , the second type is _____

- a) single dimension
- b) double dimension
- c) poly dimension
- d) multi dimension

23) in _____ we can edit in run time

- a) text box
- b) combo
- c) label
- d) all of these.

24) frame is used to differentiate the one radio button group to another radio button group.

- a) true
- b) false
- c) both a and b
- d) none of these

25) which symbol is used for equal purpose ?

- (a) ==
- (b) &
- (c) >=
- (d) all of above

26).----- is numeric data type.

- (a) string
- (b) Boolean
- (c) long
- (d) date

27).which type of array requires one indexes to identify a particular element.

- (a)single dimensional array
- (b)two dimensional array
- (c)multidimensional array
- (d)none of these

28) vb is an _____.

- a) Object based programming language
- b)Script language
- c) mobile application
- d) none of these

29) In_____The size of the array can be changed at the run time- size changes during the program execution.

- a) true
- b) false
- c) both
- d) none of these

30) The_____ is show above the Properties Window

- a) Properties Window
- b)Project Explorer
- c) Menu bar
- d) Toolbox

31) Microsoft ActiveX Data Control 6 is insert from component , it is used to load ADO control.

- a) true
- b) false
- c) both
- d) none of these

32) The Project Explorer is used to show quick reference to the various elements of a project namely form, classes and modules

- a) true
- b) false
- c) both
- d) none of these

33)----- is date data type.

- (a)string
- (b)Boolean
- (c)long
- (d)date

34) single dimensional array requires one indexes to identify a particular element.

- a) true
- b) false
- c) both a and b
- d) none of these

35) The most common event associated with the command button is the Click event,

- a) true
- b) false
- c) both a and b
- d) none of these

36) The main property of Image Control is stretchable,

- a) true
- b) false
- c) both a and b
- d) none of these

37) The main property of ____, is LoadPicture and resize the picture .

- a) picture
- b) text
- c) list
- d) form

38) in Combo Box is we present a list of items where the user can click and select the items from the _____

- a) Drop down list
- b) list
- c) text box
- d) label box

39) Following are not the arithmetic operator .

- a) mod
- b) <=
- c) +
- d) /

40) Following are the not condition operator .

- a) >
- b) <
- c) <>
- d) mod

1(a)	2(a)	3(a)	4(a)	5(a)	6(a)	7(a)	8(b)	9(d)	10(d)
11(a)	12(a)	13(a)	14(a)	15(c)	16(a)	17(b)	18(b)	19(a)	20(b)
21(c)	22(c)	23(d)	24(a)	25(a)	26(c)	27(a)	28(a)	29(a)	30(b)
31(a)	32(a)	33(d)	34(a)	35(a)	36(a)	37(a)	38(a)	39(b)	40(d)
